

## 203-C: Pivotal 5.9 Toolkit Customization – Windows Access Interface

### Overview

This course teaches the skills and techniques needed to customize Windows Access Interface features of the toolkit (content that is not covered in the 200-C: Pivotal 5.9 Toolkit Customization course).

\*\*The 203-C will now be taught as a 3-hour session, on Wednesday during the week of each 200-C: Pivotal 5.9 Toolkit Customization course. Students taking this course should plan on extending this day when attending the 200-C. When registering for a session, select the date that coincides with the week you are attending the 200-C and you will be enrolled accordingly.
